OFFICIAL PHOTOGRAPHER

Avish Narandas

Avish Narandas is a Johannesburg based professional photographer obsessed with documenting stories. He achieves it through the actions of his subjects and the tension generated by the constant inclusion of leading lines in his images. Avish is passionate about capturing unseen and everyday situations in different social contexts such as city life, public transportation, rural landscapes, wildlife and the intimacy of people's lives.

His photographic style is simplistic, authentic, emotive and candid, using various compositions, styling and lighting techniques. He defines himself as a social/lifestyle photographer, coached by renowned international artists. Over the last 4 years he has learnt that gaining people's trust is the most powerful tool for capturing meaningful stories.
